

Inclusion of Children and Adolescents in the Development and Evaluation of TB Diagnostics

Final Results from the Delphi Consensus Process

Agenda

- Review qualitative and quantitative results from the multi-stakeholder Delphi process
- Participant response panel
- Open forum for feedback and discussion

Zoom – Register [here](#)

Recording will be made available

Wed, 24 May 2023

9 – 10:30 AM US Eastern Time

Over the last year, stakeholders from academia, industry, government, funding agencies, and advocacy completed a consensus process on how to include children and adolescents in TB diagnostic development and evaluation. We will discuss the final results and future implications.

If any questions, please contact Dr. Else Bijker at else.bijker@paediatrics.ox.ac.uk or Dr. Devan Jaganath at devan.jaganath@ucsf.edu
